5. Relationship to Other Initiatives

a. Does this project implement an existing study or plan for the community?

Yes ☐ No ☐

If yes, please share the name of the study or plan and a link if it's available online.

b. Is this project a continuation of a previously funded CDBG project? Yes ☐ No ☐

If yes, what is the name and year of the project?

6. Qualification:

a. Does the project benefit a low to moderate income area of the community?

Yes ☐ No ☐

This can be measured by the actual people benefiting from the project/program or by the census block group area being served.

To qualify, at least 51% of the persons benefiting from this project must have incomes of 80% or less of the area median income. Currently, this is \$69,050 per year for a household of four people.

b. Please list the census tract number(s) and block group(s) that benefit from this project:

The US Bureau of the Census no longer administers a long form census; this means that they lost the ability to track block group data. If census tract data does not show 51% low to moderate income residents, a local survey can be administered.

c. Do you anticipate having to collect local survey data? Yes ☐ No ☐

d. Does the project assist senior citizens, persons with disabilities or make accessibility changes to a building? Yes ☐ No ☐

If yes, please explain:
