We'll be working in your area soon.

We are strengthening the electric grid, making it more resistant to severe weather and more resilient to help restore power outages faster. As part of this important work, we have identified opportunities to improve service in your area.

While all customers served by this power line will benefit from improved reliability, the construction will impact a smaller area. If we need permission to access your property, our representative will be in touch soon.

If you have additional questions, please contact your dedicated public engagement manager.

Project name: Lansdowne Ave

Description of work: Duke Energy will be replacing poles, upgrading overhead lines and equipment. During the construction there will be large line trucks, equipment and material in the area. Traffic flaggers will also be in the area

Date: Work is scheduled to begin Jan 9, 2023 through April 7, 2023. Monday-Friday 8am-4pm

Location: Lansdowne Ave between the intersections of Plainfield Rd and Quarter Maine Ave. Please note: Due to the narrowness of Lansdowne Ave there will be rotating areas of no street parking near the construction area.
